

- B. The change in the natural contour of the land during mining operations and at the cessation of same shall be maintained as safe for any person having reason to be within the area of mining activity and all trespassers.
- C. No business or industrial structures or buildings of a permanent nature shall be erected without prior approval.
- D. No truck parking or truck storage shall be located within two hundred (200) feet of any adjacent residence or within fifty (50) feet of any adjoining property.
- E. A well maintained wire or painted wooden fence shall be erected on any side adjoining a residential property.
- F. No part of the removal process shall take place closer than two hundred (200) feet to the nearest adjacent residence or closer than fifty (50) feet to any street line.
- G. The proposed restoration elevations shall be compatible with surrounding areas and adequate safeguards shall be made to insure proper drainage.
- H. The property shall be restored by the replacement of topsoil and such soil shall be stabilized by appropriate plantings.
- I. All truck traffic shall be directed away from residential streets.

SECTION 16.29 RIPARIAN LOT USE REGULATIONS

- A. **PURPOSE:** It is the purpose of this section to protect the quality of the lakes located within Hamilton Township, to protect the health, safety and general welfare of riparian owners and other users of said lakes; to preserve the recreational use of said lakes while discouraging excess use thereof; to promote the ecological balance of the waters by limiting incompatible land use of the wetlands associated with the lakes; and to maintain the natural beauty of the lakes by minimizing man-made adjustments to the established shorelines. Nothing in this section shall be construed to limit access to lakes or waterways by the general
