

Lake of the Woods Improvement Association
Board Meeting Minutes
July 15, 2017

Present: Sharon Neubauer, Bob Richter, Dominic Panico, Dan Buentz, Marci Ellis, John Boersma, Jim Neubauer, Joe Leary

Absent: Tim Wilson

1. Board positions were discussed. Motion was made and passed to maintain the current board positions:
 - Bob Richter, President
 - Dan Buentz, Vice President
 - John Boersma, Treasurer
 - Marci Ellis, Secretary
2. There was discussion about the meetings at Hamilton Township. Hamilton Township will send out a survey—probably with the tax bills in January. There was discussion of Board support for updating the ordinances in both townships to make them enforceable and prevent over-crowding on our lake.
3. Someone asked Bob a question regarding the level of the lake being low and is it possible to have the drain commission put boards in the dam. In 1949 or early 1950's a "legal lake level" was set; also the dam is a three sided concrete spillway. It would be a very major undertaking to change the lake level as our lake is a very large water shed. The DEQ will be re-building the steel walls of the dam and remodeling the culvert under the road.
4. Bob will take care of making a reservation for next year's picnic for the third Saturday in July.
5. Meeting was adjourned.
